

GE Lighting Legislation Overview

The United States Department of Energy has enacted new energy efficient legislation that impacts the manufacturing and availability of all lamps. Specifically, the legislation will effect certain incandescent A19 lamps as of January 1, 2012 and linear fluorescent, par lamps and U-shaped fluorescent lamps by July 15, 2012

Please review the publication from GE Lighting and should you have any questions or concerns please contact your Advance Electric sales representative or Kevin Kennedy, Dir., Energy Products & Solutions at kkennedy@advanceelectrical.com
